to be able to check all my tags,
so that I can review what I
have shared in the past

Scenario: User tries to view all his tags

GIVEN: I am on the profile page
WHEN: I click 'My tags' tab
THEN: I will see all my tags in a list with the
most recent tags first

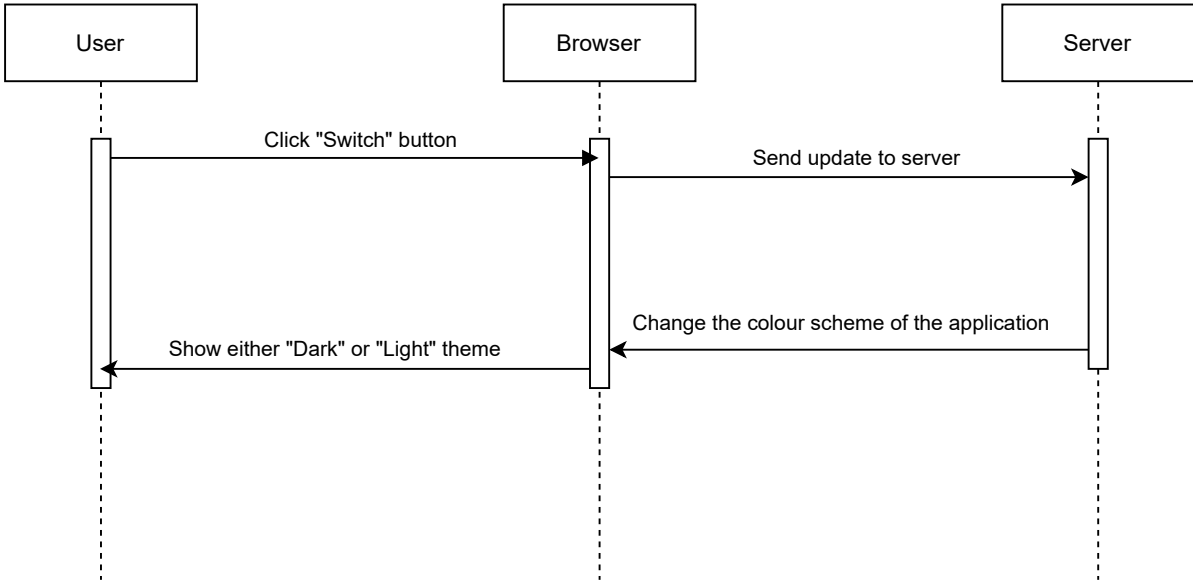

Requirement 2:
Account Management &
Preferences

Story 2.5.1 - As a user, I want to be
able to change the view mode so
that I can toggle between a
suitable mode for the lighthness of
my environment

Scenario: User tries to change
from light mode to dark mode

GIVEN: I am on the settings page
WHEN: I see light mode is on
AND: I click on the switch
THEN: The mode will be changed
to dark mode

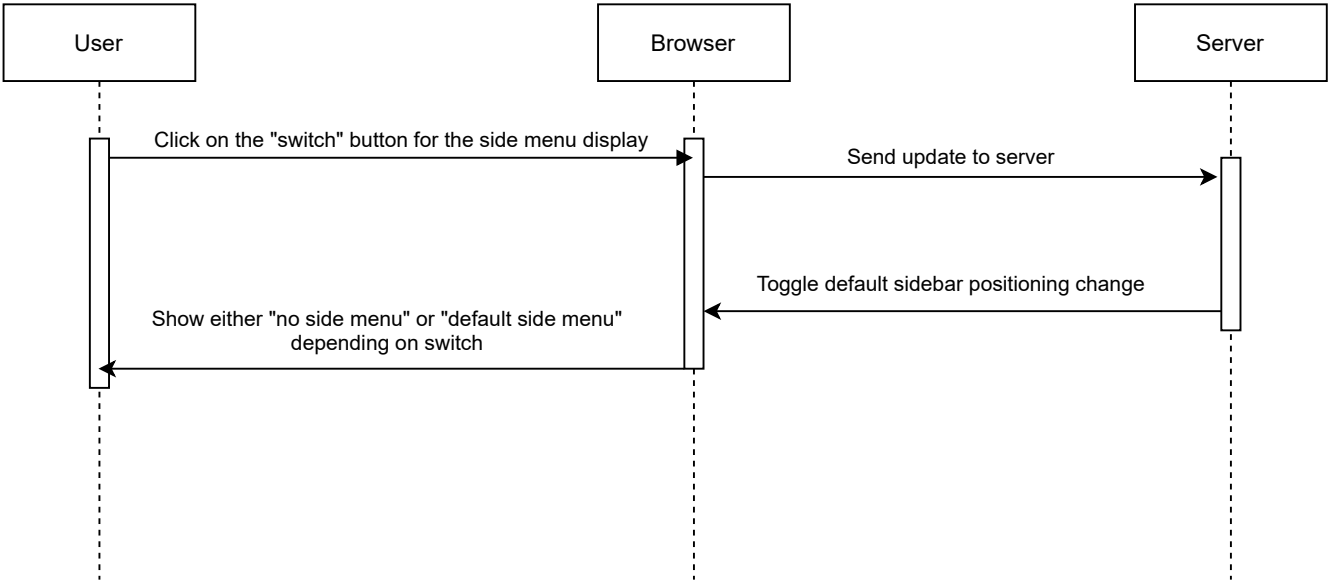

Requirement 2:
Account Management &
Preferences

Story 2.6.1 - As a user, I want
to be ale to change whether
the side meny is displayed on
default, so that I can always
have a clear view on the map
on the homepage

Scenario: User tries to change the
setting for side menu

GIVEN: I am on the settings page
WHEN: The side menu is set to be
displayed on default
AND: I click on the switch
THEN: The setting will be turned
off

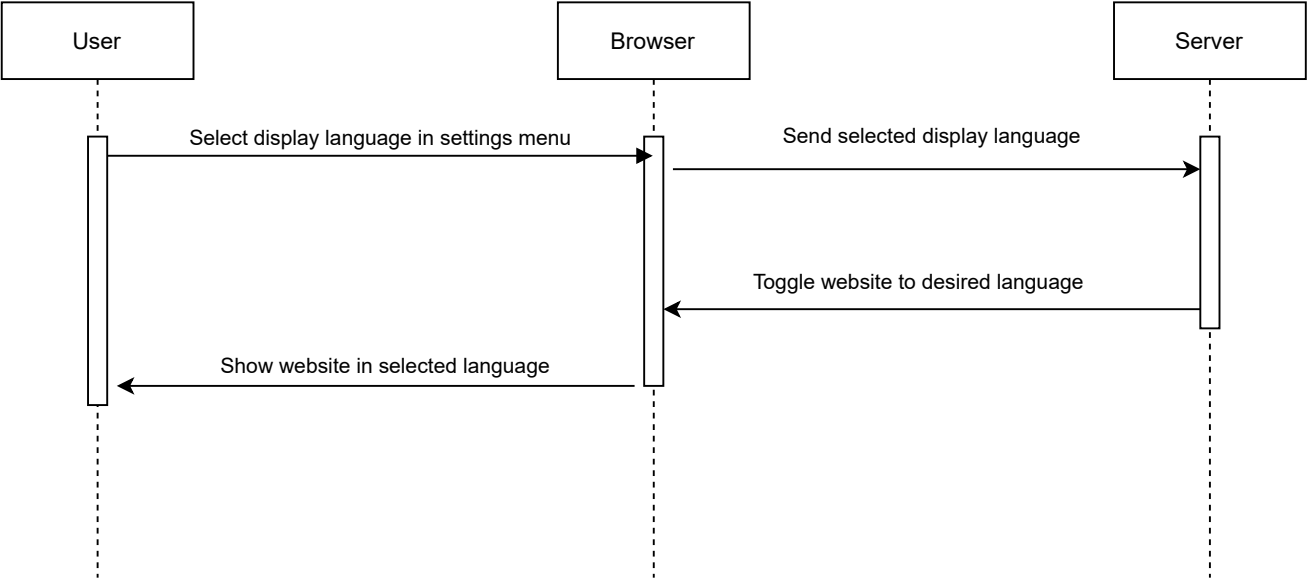

Requirement 2:
Account Management &
Preferences

Scenario: User tries to
change the display language

GIVEN: I am on the settings page
WHEN: I select a language that I want to
use
THEN: the website will be displayed in
the language I selected

Story 2.7.1 - As a user, I want to
be able to change the display
language to my home language,
so that I can better understand
the website and posts

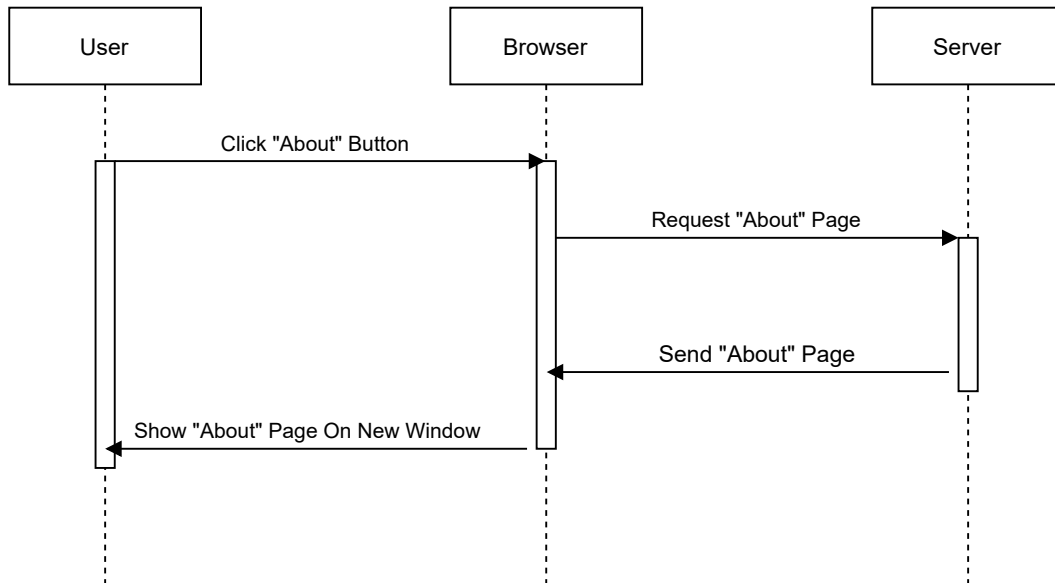

Requirement 3:
Home Page and
Dashboard

Scenario: User looks at what the
website is about

GIVEN: I am on the home page and not
signed in
WHEN: I click on 'More info' button
THEN: I will be redirected to the about
page

Story 3.1.1 - As a user
I want to check the about page of
the website so that I can get more
information about the motivation
and team behind the website

Requirement 3:
Home Page and
Dashboard

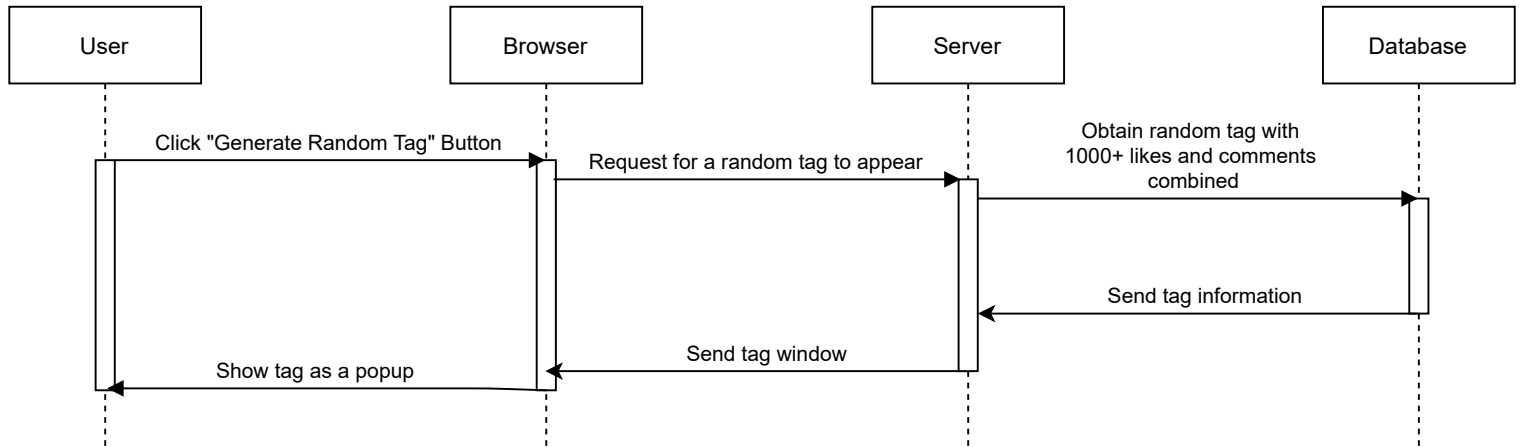

Scenario: User tries to generate a
random tag

GIVEN: I am on the home page

WHEN: I click on 'Generate
Random Tag' button

THEN: A popup will be shown of a
random tag

Story 3.2.1 - As a user
I want to generate random
tag so that I can explore a
random place/song around
the world

Requirement 3:
Home Page and
Dashboard

Dashboard

Scenario: User tries to hide the side
menu

GIVEN: I am on the home page
WHEN: I click on the 'Hide' button of the
side menu
THEN: The side menu will be hidden to
the side

Story 3.4.1 - As a user,
I want to hide the side menu
(toggle list) to the side of the
website so that I can have a
better view on the map

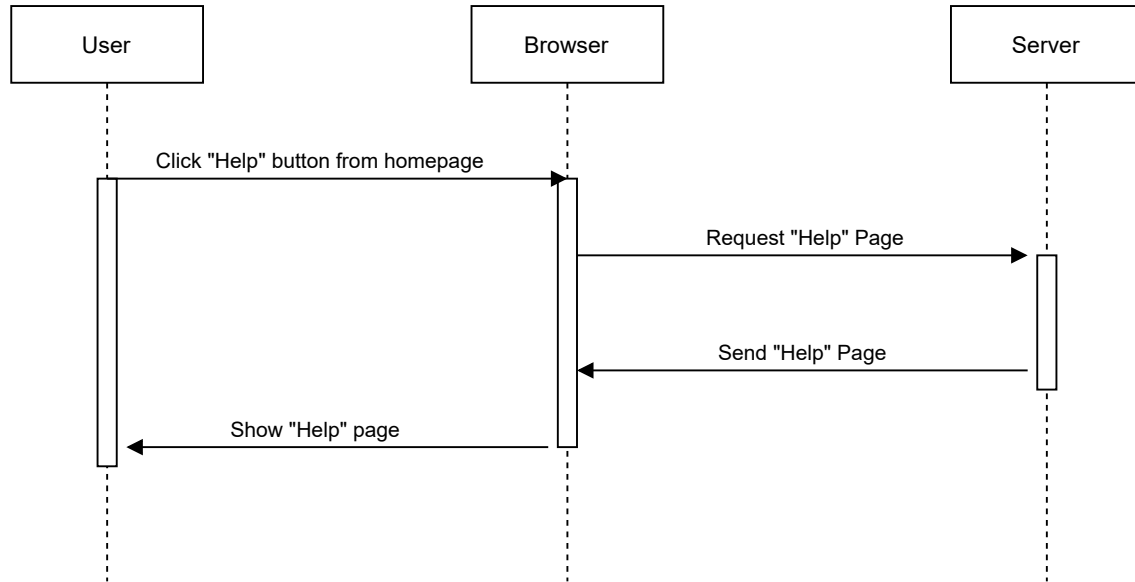

Requirement 3:
Home Page and
Dashboard

Story 3.5.1 - As a user,
I want to check the help
page
So that it can help me
navigate the site in case I
need support

Scenario: User tries to hide the side
menu

GIVEN: I am on the home page
WHEN: I click on the 'Hide' button of
the side menu
THEN: The side menu will be hidden
to the side

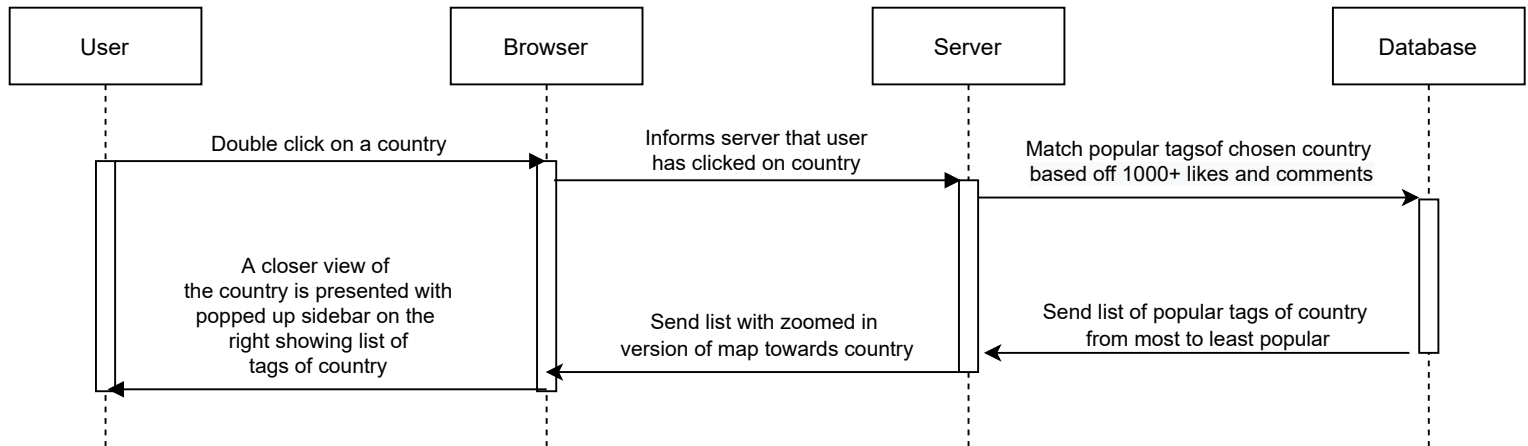

Requirement 3:
Home Page and
Dashboard

Scenario: User tries to zoom into a country

GIVEN: I am on the home page
WHEN: I double click on a country on the map
THEN: The map will be zoomed in
AND: It will show the country and its popular
tags from most popular to least popular

Story 3.6.1 - As a user, I
want to be able to zoom into
a continent or country on the
map so that I can explore
different parts of the world

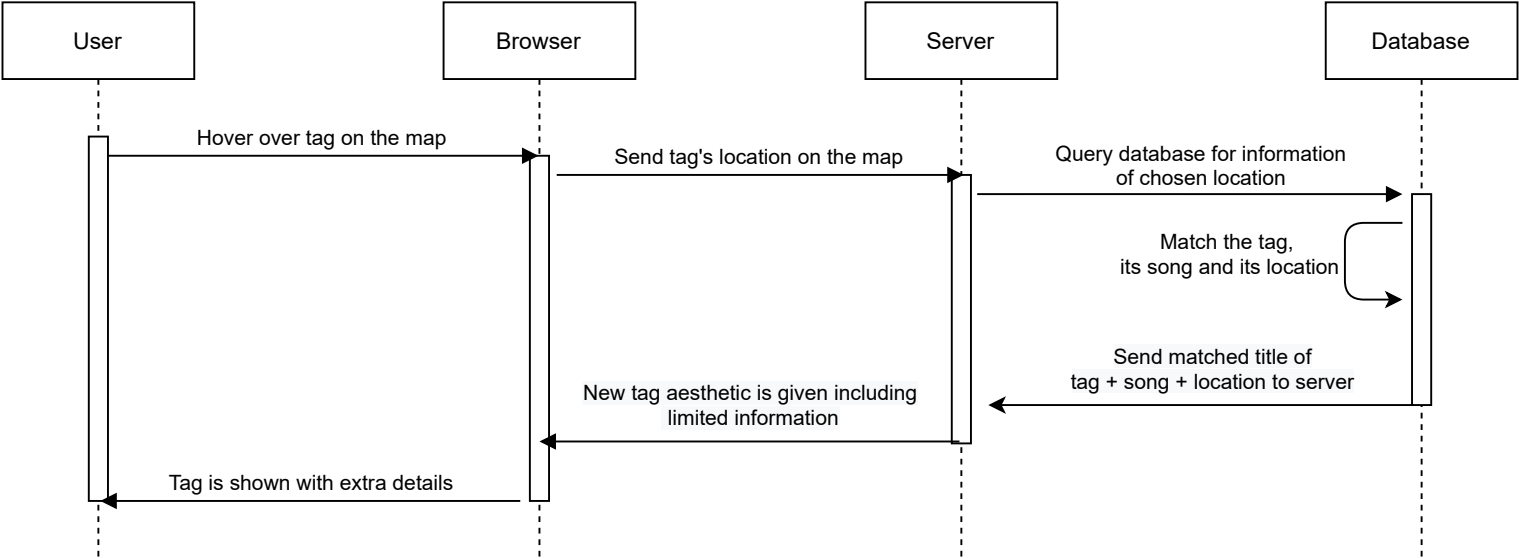

Requirement 3:
Home Page and
Dashboard

Story 3.7.1 - As a user,
I want to be able to preview a
tag on the map so that I can
know what the post is about
before reading it

Scenario: User tries to preview a
tag on the map

GIVEN: I am on the home page
WHEN: I hover over a tag on the
map
THEN: A text box pops up with the
place, chosen song and its artist

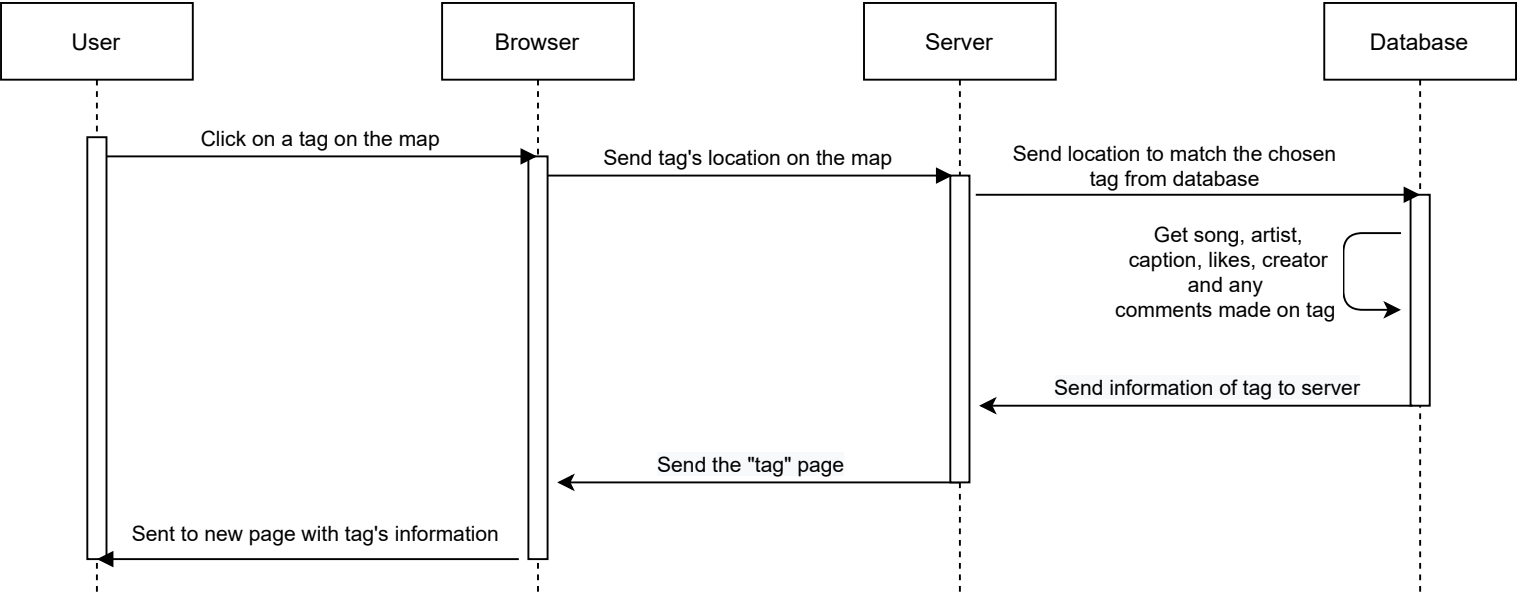

Requirement 3:
Home Page and
Dashboard

Story 3.8.1 - As a User
I want to be able to read the
post by clicking on the tag so
that I can know what people
are posting all around the
world

Scenario: User tries to view a tag
on the map

GIVEN: I am on the home page
WHEN: I click on a tag on the map
THEN: A new window pops up
showing the contents of the tag

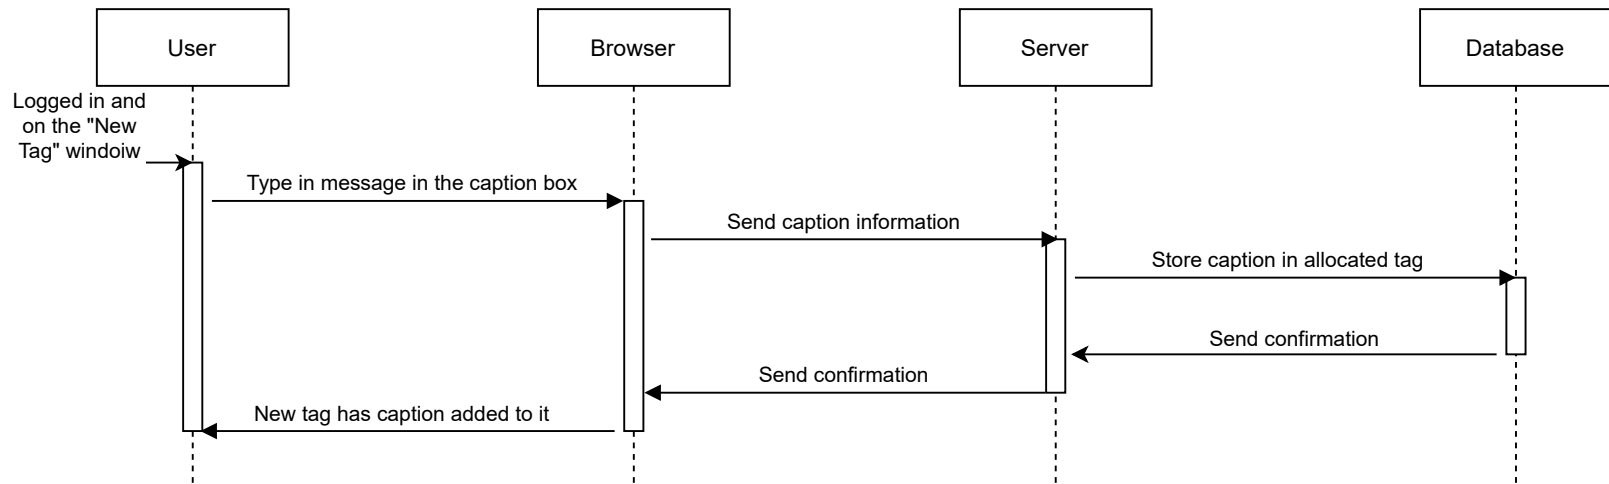

Requirement 4:
Post Creation

Story 4.1.1 - As a user,
I want to be able to add a
message to a new post I am
creating so that I can explain
some experience or thought I
have

Scenario: User clicks on new post

GIVEN: I click "create new post" in
the homepage
WHEN: I insert a message in the
box and submit
THEN: The post will contain the
message I just added

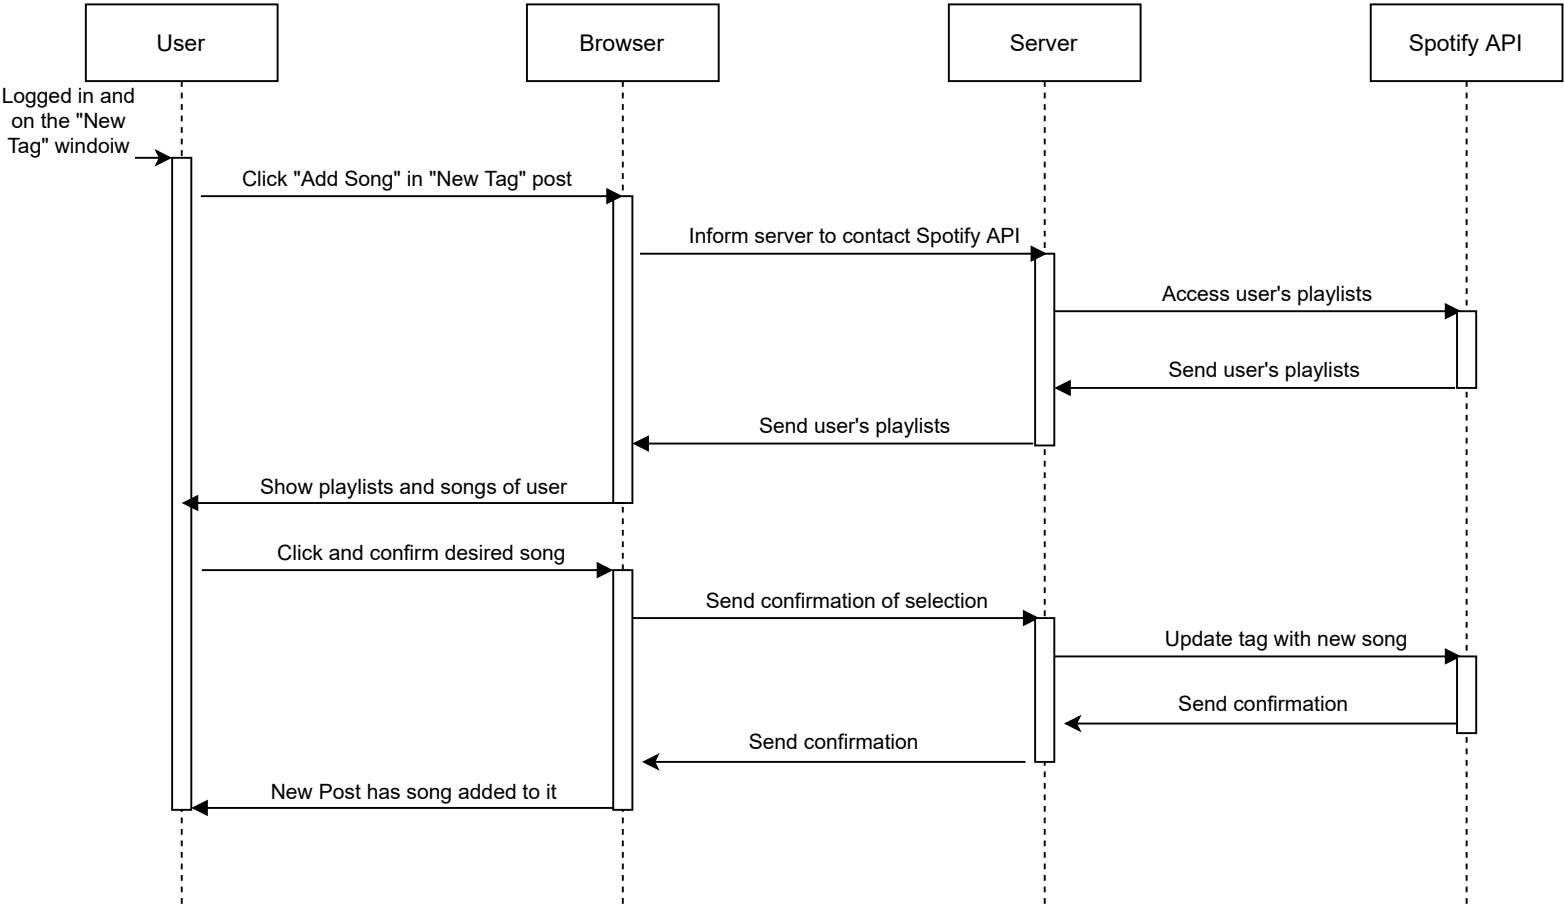

Requirement 4:
Post Creation

Story 4.2.1 - As a user,
I want to be able to attach a Sportify
song to my post so that I can share it
with others

Scenario: User tries to add a song to the post

GIVEN: I am on the page for making a "New
Tag"
WHEN: I click on "Add song"
THEN: I will be redirected to Sportify where i
can pick the song I want to include in my post

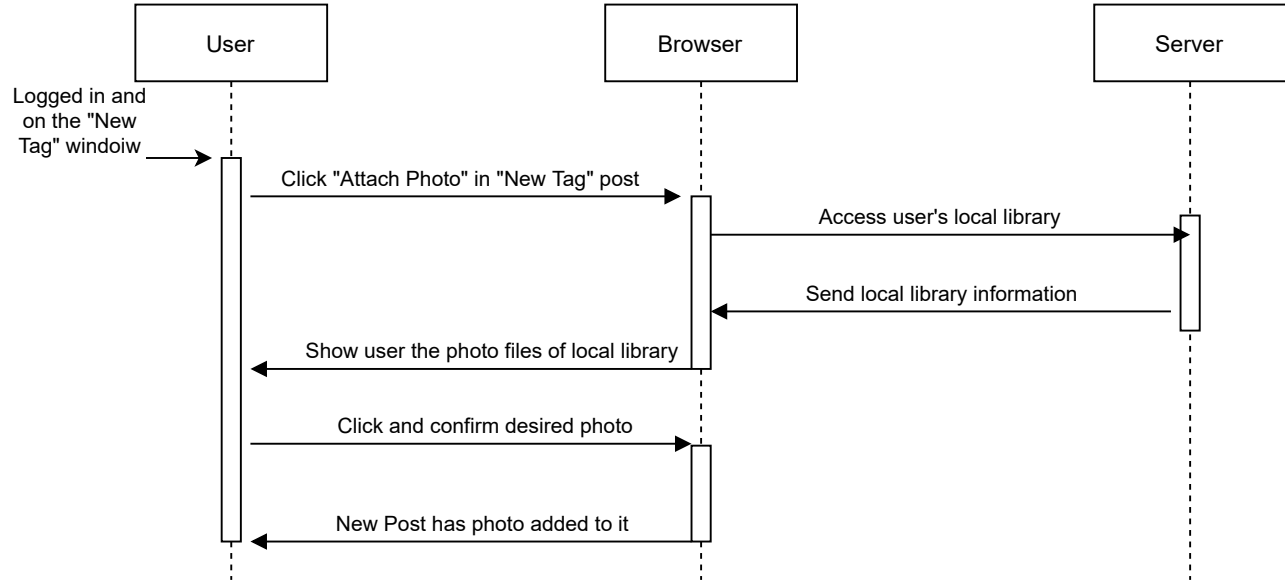

Requirement 4:
Post Creation

Story 4.3.1 - As a user,

post so that I can share a particular
memory or experience

Scenario: User tries to add a image to the post

GIVEN: I am on the page for making a "New Tag"
WHEN: I click on "Upload image"
AND: I choose an image from my computer
THEN: The image will be uploaded to my post

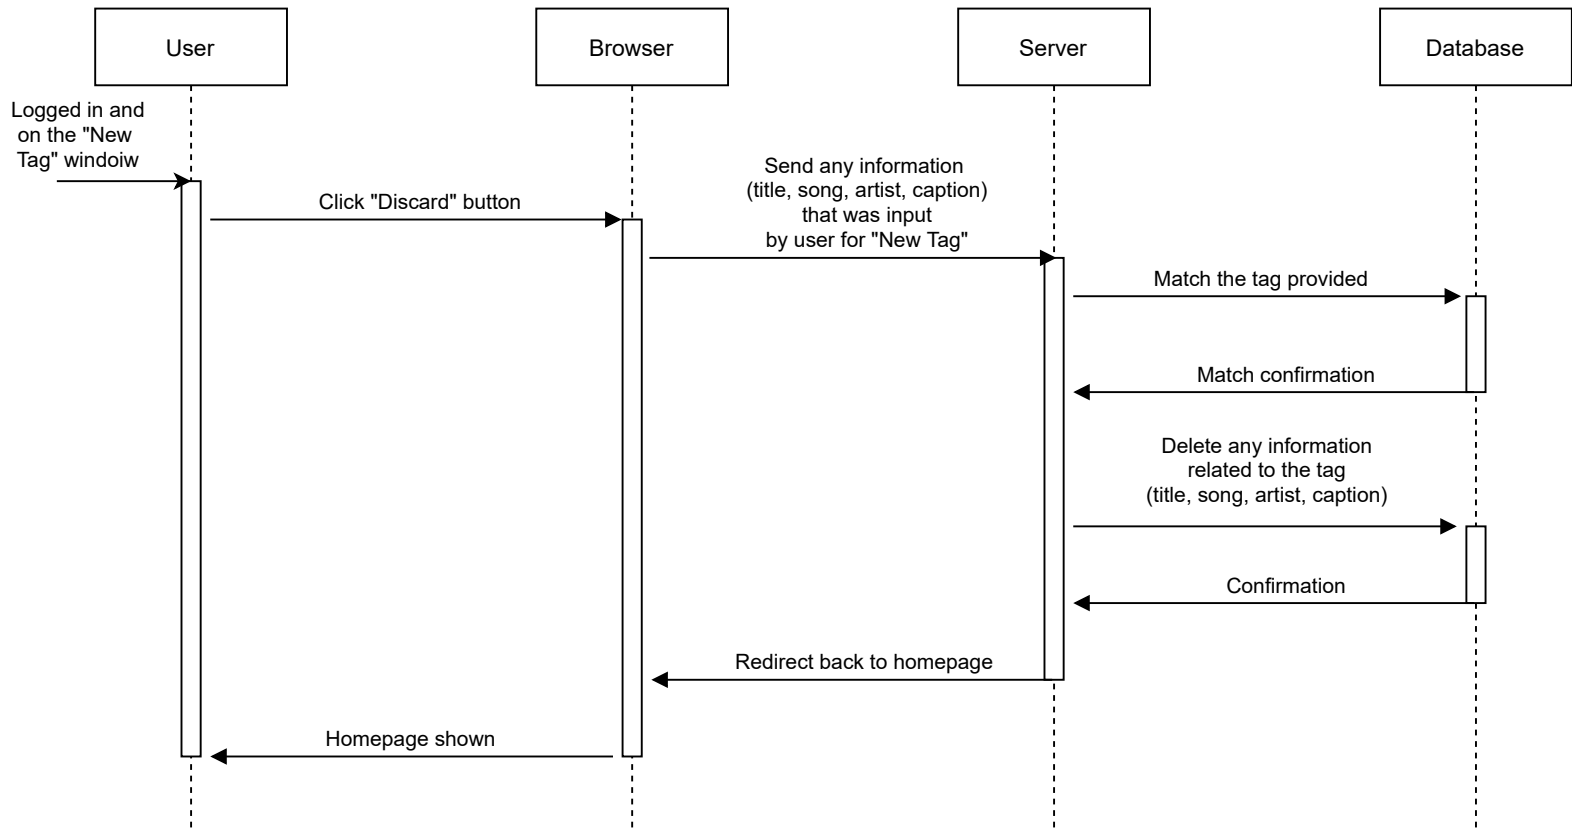

Requirement 4:
Post Creation

Story 4.4.1 - As a user,
I want to be able to discard my tag so
that when I'm not satisfied with my tag
I do not have to keep it

Scenario: User wants to discard a tag when
making it

GIVEN: I am on the page for making a "New Tag"
WHEN: I click on "Discard" button
THEN: The tag will be discarded
AND: The window will be closed

Requirement 4:
Post Creation

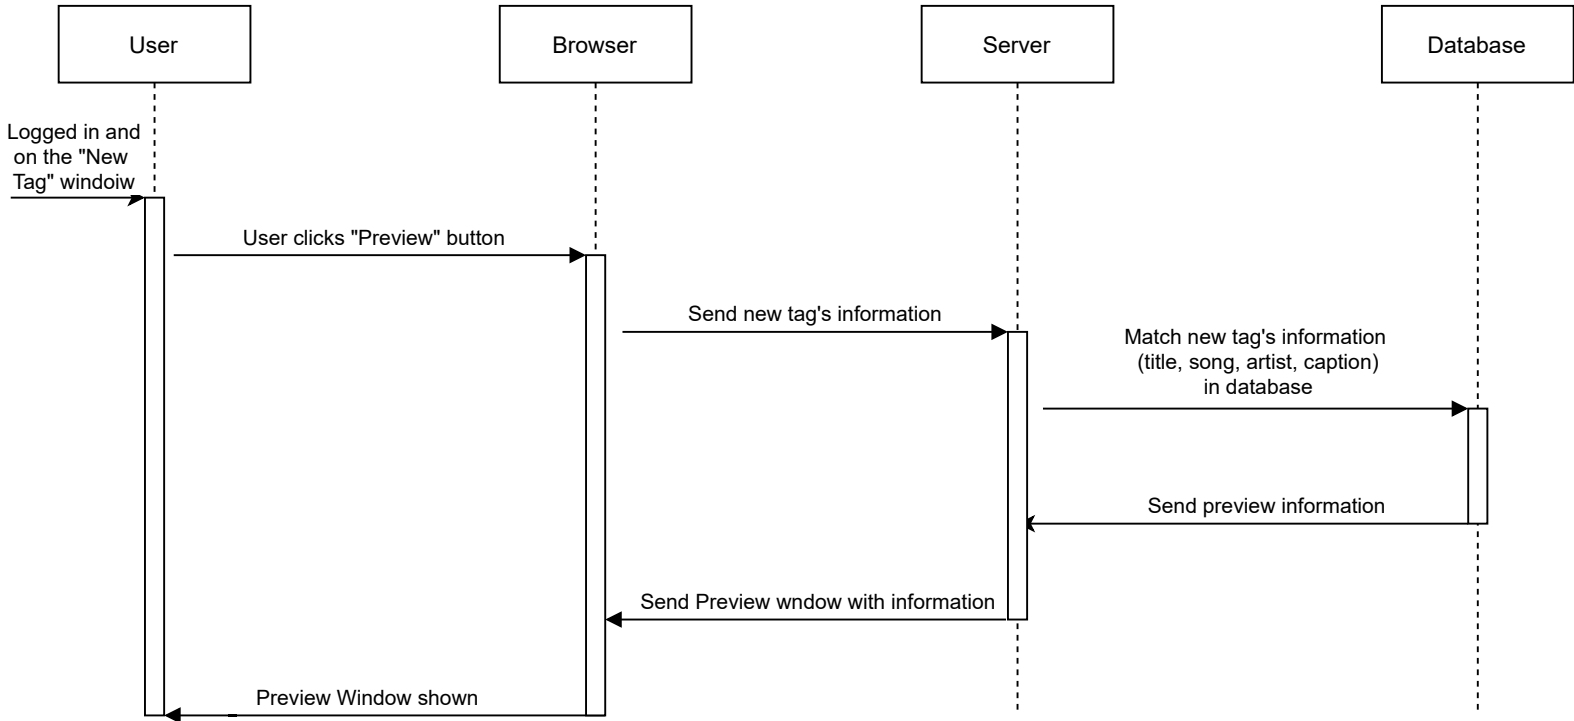

Story 4.5.1 - As a user,
I want to be able to preview my post so
that I can check if I have made any
mistake in my post

Scenario: User previews his post

GIVEN: I have drafted my post on the page for making a "New Tag"

WHEN: I click on "Next" button

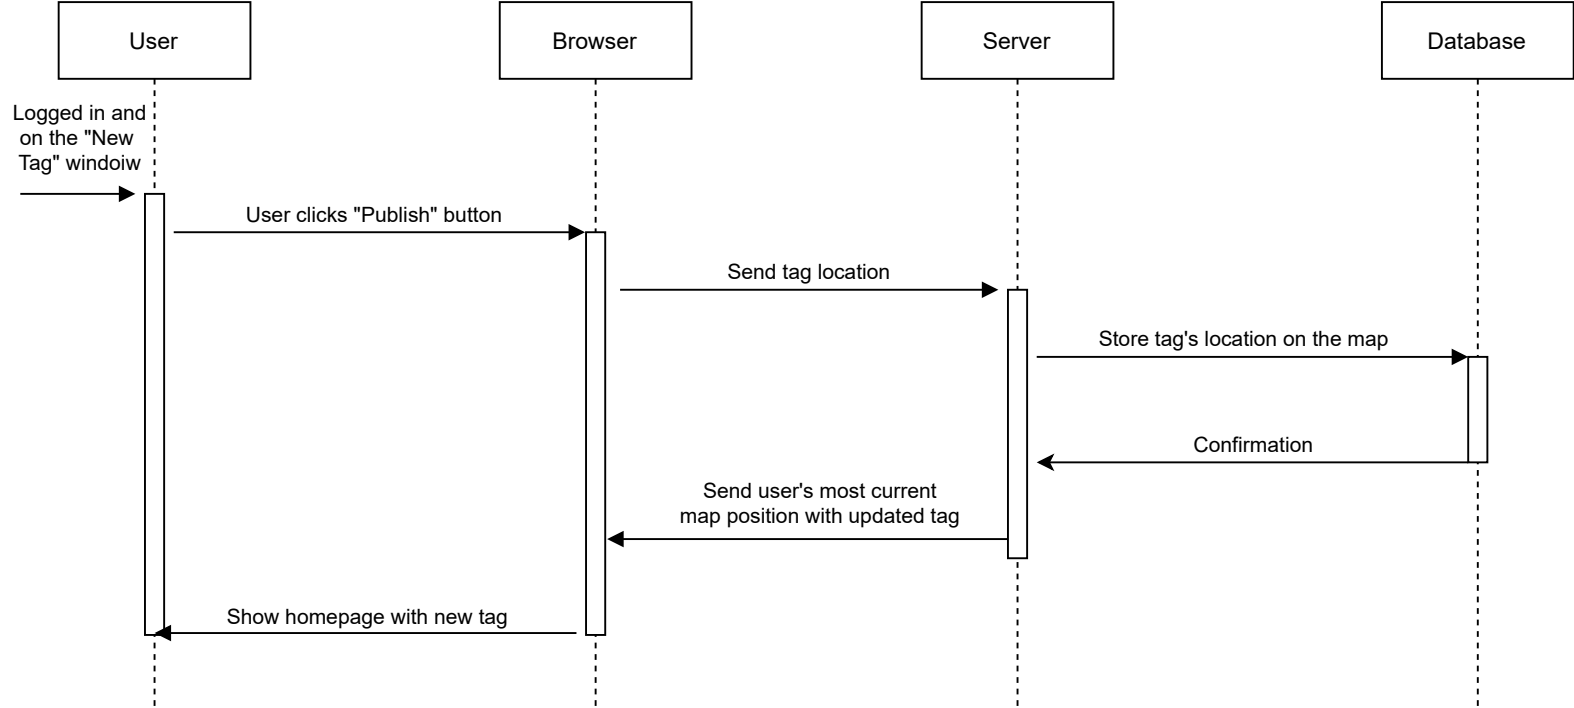

THEN: I will be redirected to the preview page of my post

Requirement 4:
Post Creation

Story 4.6.1 - As a user,
I want to be able to publish my post so
that I can share my post to people
around the world on the platform

Scenario: User publishes his post
GIVEN: I have previewed my post
WHEN: I click on "Publish" button
THEN: I will be redirected to the page of my
published post
WHEN: I click on "Back" button
THEN: I will be redirected to the home page

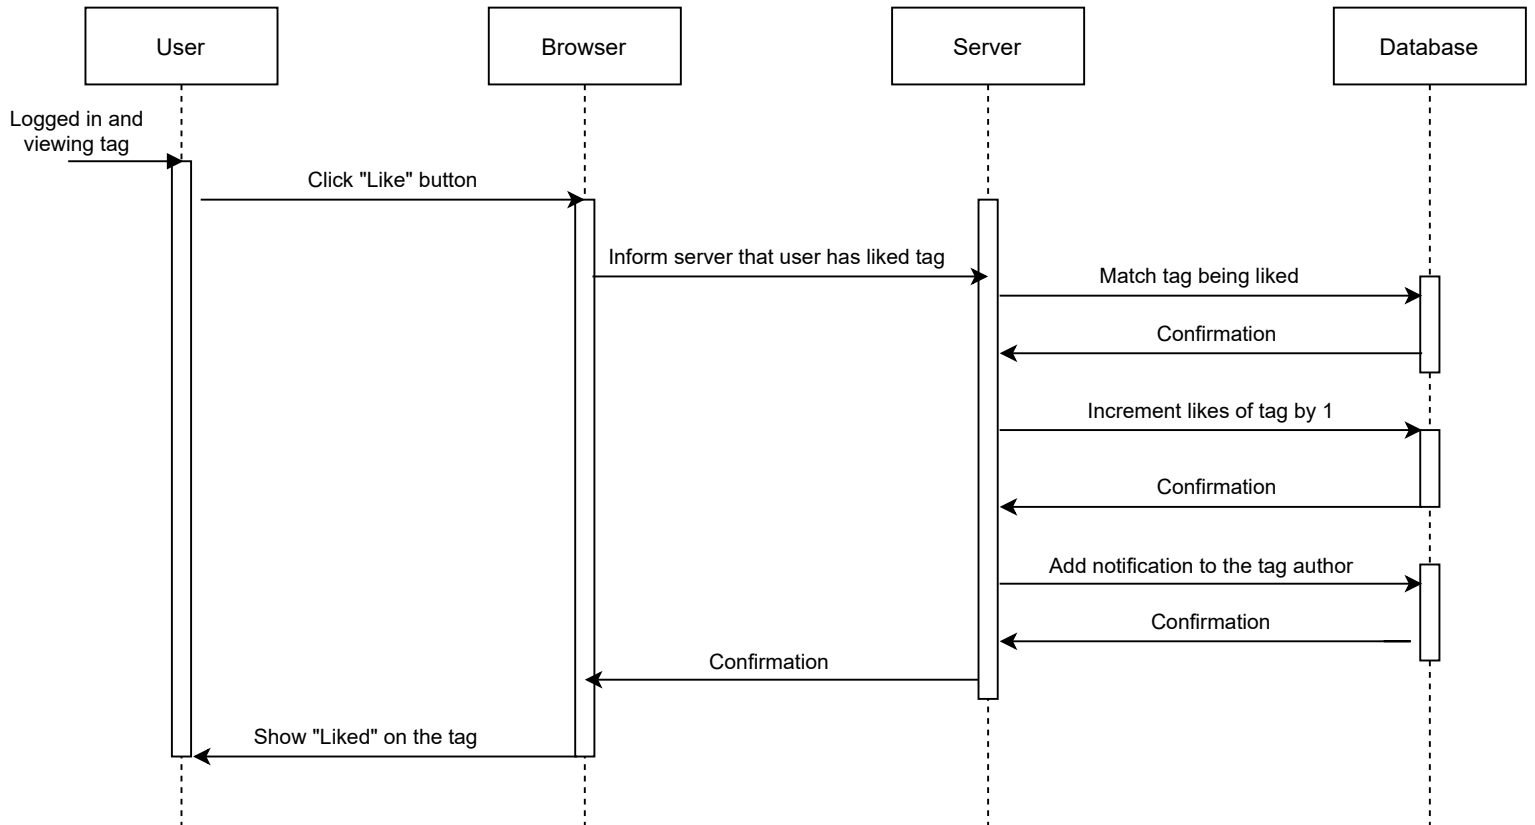

Requirement 5:
Interaction

Story 5.1.1 - As a user, I want to be able to 'Like' a post, so that I can engage with other people's posts.

Scenario: User clicks the Like button when viewing a post

GIVEN: I am viewing a tag that I like
WHEN: I click on "Like" button
THEN: The tag will have my like added to it

Requirement 5:
Interaction

Story 5.2.1 - As a user, I want to be able to comment on a post, so that I can interact with other people and share my thoughts

Scenario: User comments "Nice" on a tag "Nice"

GIVEN: I am viewing a tag that I like

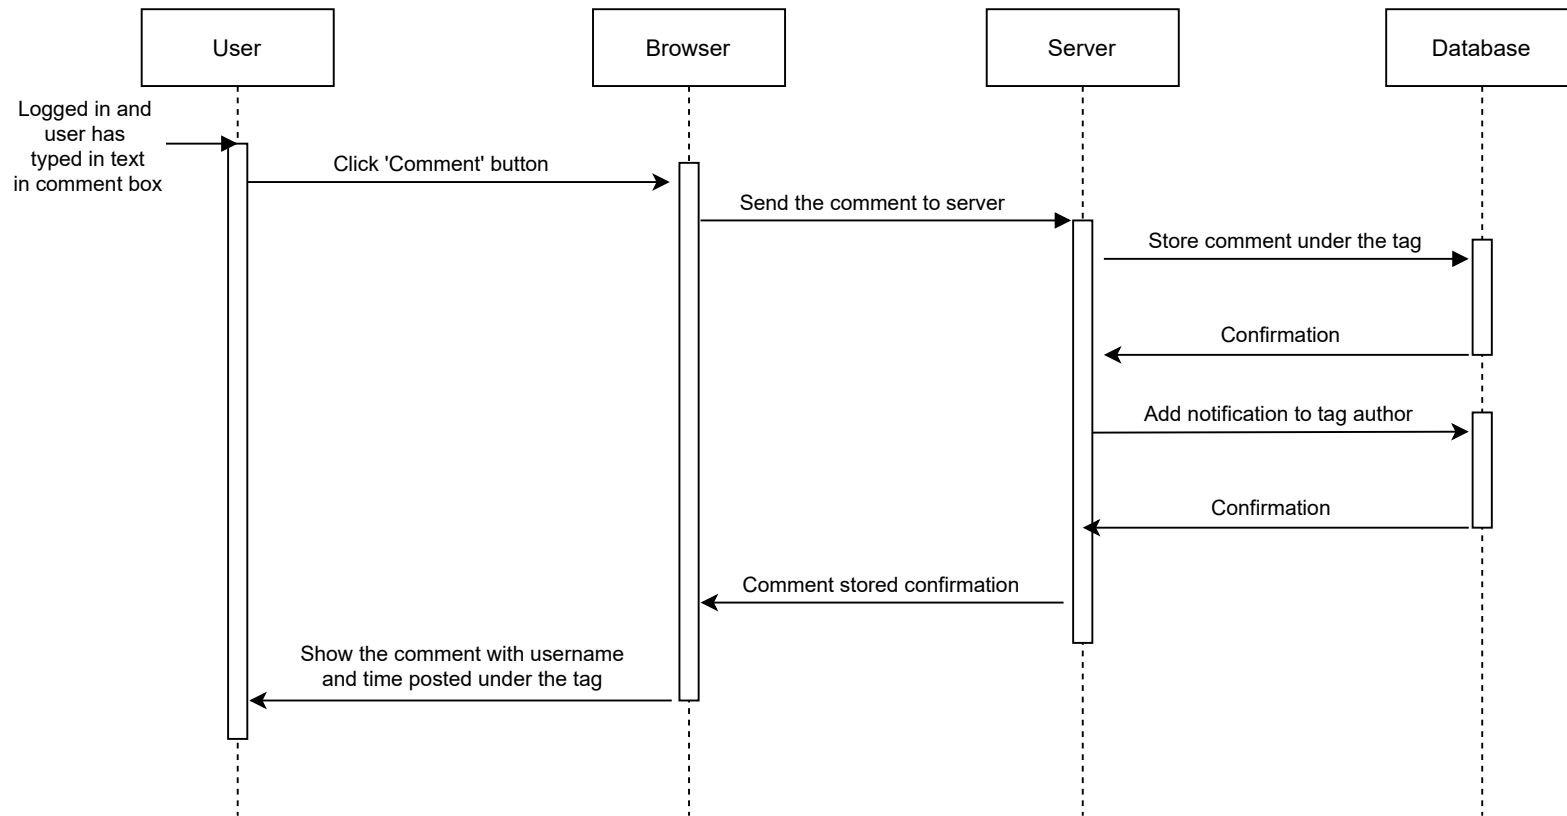

WHEN: I click on the comment box

THEN: It gets highlighted

WHEN: I type in "Nice"

AND: Click "Comment"

THEN: My comment gets posted under the tag, with the content

Requirement 5:
Interaction

Story 5.3.1 - As a user, I want to play the music attached in a tag, so that I can enjoy new music people have shared and learn more about it

Scenario: User listens to the song “Lonely” in the tag

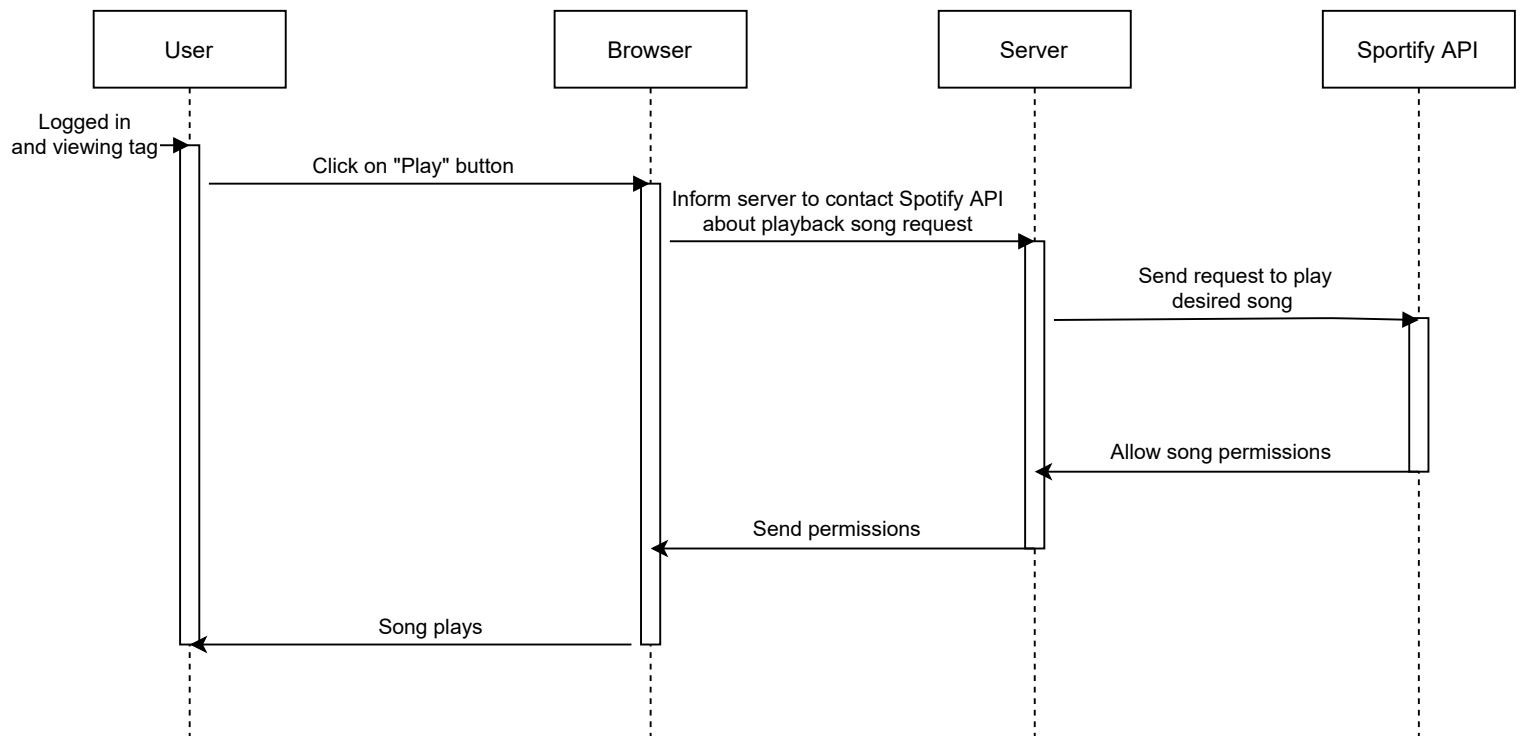

GIVEN: I am viewing a tag with the song “Lonely” attached

WHEN: I click on the “Play” button

THEN: The song “Lonely” starts playing

AND: The play button is replaced by a progress bar for the song

Note: Song “Lonely” by Lauv feat. Anne Marie

Requirement 6:
Search for posts

Story 6.1.1 - As a user, I want to filter out the posts that are presented on map, so that I can find the post that I'm interested in.

Scenario: User tries to search for specific posts

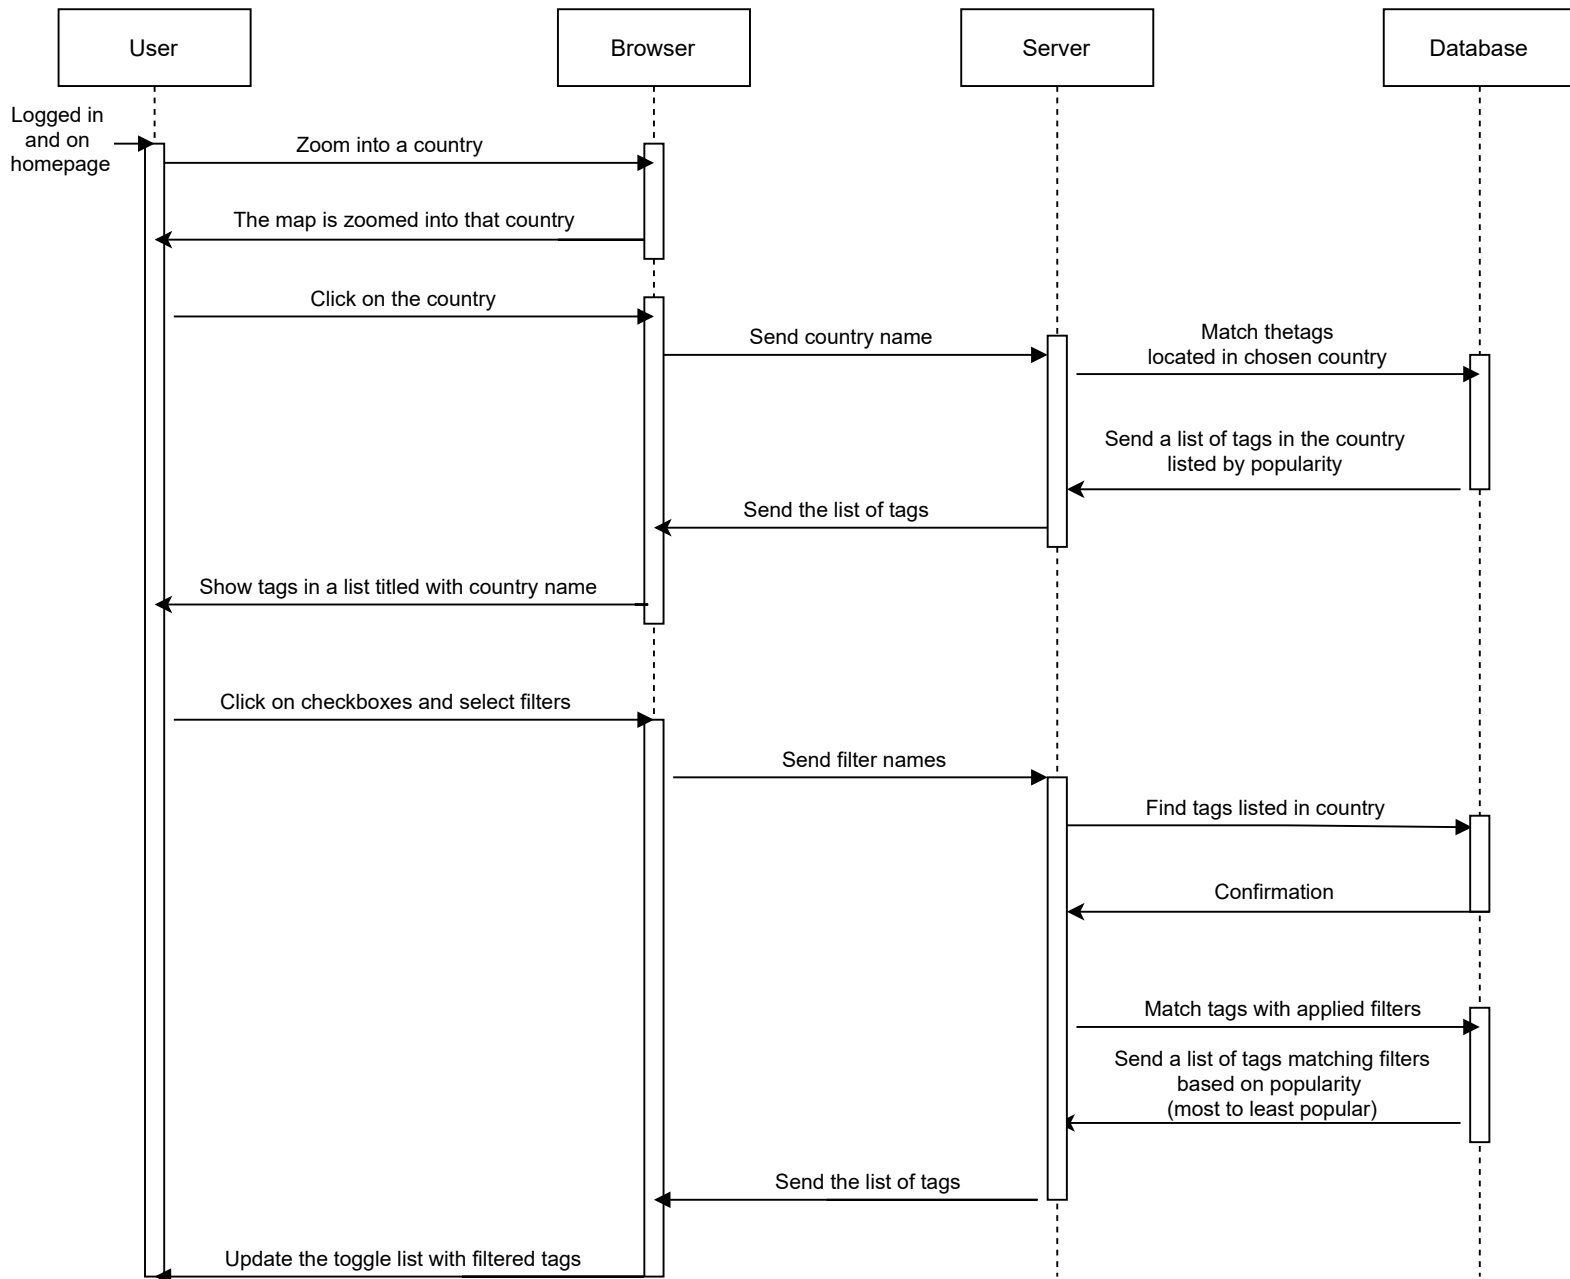

GIVEN: I am on the homepage

WHEN: I zoom into a specific country

THEN: I select the filters I want

AND: I click confirm

THEN: I will see music and posts based on what I searched for from most to least popular

Requirement 6:
Search for posts

Story 6.2.1 - As a user, I want to be able to search for certain posts, so that I can find certain tags and songs.

Scenario: User is looking for a specific tag and songs

GIVEN: I am on the search page

WHEN: I type the keywords into the search bar

THEN: I will be shown tags containing any of the keywords from most to least popular
