What is WorldPlay?
- Text:** "WorldPlay was inspired by the COVID-19 global pandemic that began in 2020. International travel was no longer a possibility, borders everywhere had shut down, and the internet became one's link to the rest of the world. With the rapid rise of music consumption and content streaming, along with the entire world turning to social media, we found that there is no existing platform that celebrates the influences of music. WorldPlay was born from a desire to allow individuals to share their favourite songs, experiences and their culture with the world."
- Section Header:**

How does WorldPlay work?
- Text:** "After creating an account and logging in, you will be able to explore special posts called *tags* around the world map. Tags contain a title, a song from Spotify, a caption and sometimes a photo. You can:
- List:**
 - Explore tags from around the world, learn about others' personal experiences, culture, travels and broaden your music taste.
 - Create your own tags! Import songs that you love or mean a lot to you and share these with others.
